Aspire

CABINETRY™

Clean lines and crisp edges are what define Aspire Cabinetry, the new Full Access Frameless line by Wellborn Cabinet, Inc.

As you browse the beautiful images in this catalog, you will soon begin to imagine how your new Aspire Cabinetry will be the desire of everyone who visits your home.

LUXE
SERIES

Our Vision

The Wellborn Family will be the most valued provider of permanent home cabinetry designed for a lifetime of gracious living.

Our Quality

The entire Wellborn family and their employees take great pride in producing quality products. Our Quality Control Team includes over 100 employees dedicated to ensuring the quality of your cabinetry. Our certified inspectors man over 30 quality checkpoints throughout the facility.

Since 1961, Wellborn Cabinet, Inc. has been manufacturing quality kitchen and bath cabinetry in Ashland, Alabama. It all began in a small cabinet shop to build cabinets for the local markets. Since that time, Wellborn has become a state of the art manufacturing facility of over 1.8 million square feet that combines some of the most advanced technology systems in the industry with over 59 years of acquired knowledge in high quality cabinetry craftsmanship.

MODERN WARMTH

Clean lines and a balanced blend of dark and light tones are what define this modern, minimalistic space. The clean geometry of the cabinets is key to achieving this modern, minimalistic style. The matte black cabinetry against the gloss white island provides a stylish contrast while the walnut utility cabinet adds texture and warmth.

LAYERED LUXURY

This home incorporates multiple wood tones and European architecture throughout that work together to create a cohesive luxurious style. The kitchen cabinetry provides a clean, crisp backdrop for the statement-making island and regal light fixture, making it the base layer for showcasing the artistry of this home.

HIGH-GLOSS GLAMOUR

Bold color in a high-gloss finish makes a statement in this lavish kitchen. Simplistic profiles and the absence of door/drawer pulls add to the overall sleek and polished look. The interior and under cabinet lighting is a key component for highlighting the gloss and showcasing fine details like the metal accents and satin glass.

CONTEMPORARY CONTRAST

This kitchen features a fashionable two-tone look with the use of contrasting paint colors on a clean, minimalistic door style. The crisp white paired with the bold blue creates depth and dimension while still maintaining an effortless flow across the room. Brushed brass hardware and fixtures tie the space together while adding a modern flair.

TRANSITIONAL TEXTURE

These contemporary spaces provides an effortless transition from room to room by incorporating the same sleek style of cabinetry in both the kitchen and entertainment area. The stylish matte black designer laminate serves as the perfect sounding board for both the textured oak kitchen accents and the gloss gold of the entertainment center.

MDF

WellCore MDF is our line of medium density fiberboard doors. It is an engineered wood product made by breaking down wood and forming panels by applying high temperature, adhesives and pressure.

WellCore MDF is a high quality option for painted cabinetry. WellCore MDF has very consistent surface properties which means paint will lay smoothly and create a great bond on flat surfaces without the characteristic properties that can show when natural woodgrains receive paint.

WellCore MDF also has strong dimensional stability which makes it less susceptible to climate, coastal, or other atmospheric changes. Wellborn makes all WellCore MDF door styles from Super-Refined MDF2 to provide better quality from the start for your beautiful painted cabinetry.

WELLCORE MDF FINISHES

Wellborn offers a variety of paints for you to choose from to add style to your WellCore MDF door.

HANDCRAFTED QUALITY

Aspire Cabinetry is full access frameless cabinetry and by design inevitably offers more storage space which is one of the main contributing factors to its growing popularity, along with the sleek, clean minimalistic design that it reflects. With an innovative and leading edge door style selection, designs can be created from a traditional to transitional and contemporary appeal. Also, Aspire includes the time-tested craftsmanship that has made our cabinetry's quality stand out from the rest. The quality work of loyal employees who care has been passed down from generation to generation.

In the Aspire Wood Door Collection, we hand select the finest hardwoods and personally make the door for your kitchen. Hand sanding of the doors and drawers, along with hand rubbed finishes, combined with today's technology, provide a quality product for your home.

The WellCore Door Collection provides a door material that is perfect for paints. And with all the beautiful paint selections, there is bound to be one just perfect for your home. Wellborn makes all WellCore door styles from Super-Refined MDF2 to provide better quality from the start for your beautiful painted cabinetry.

The Decorative Laminate Doors are filled with many color choices in door materials of Embossed Melamine, Heavy Textured Melamine, Acrylics, Matte and High Gloss Laminates, Metal and more, making Aspire a great value in the marketplace today. Our doors have 1mm edge banding and the materials are thermofused for the highest quality.

DETAILS ADD FUNCTION

Wellborn's Smart Design offering includes a vast selection of interior accessories providing storage for every cabinet from the corner bases, under sinks, pots and pans and limitless flatware options. The touch to lift, light, open and close technology moves items with ease right where you need them. And we don't stop there – the You Draw It program lets you create your own personalized space. Function, Efficiency and Comfort... all are a must have in your dream kitchen and bath.

ASPIRE QUALITY CONSTRUCTION BRINGS BEAUTY TO ANY HOME OR OFFICE

Wellborn stays abreast of the latest innovations in cabinetry design enabling us to offer you superior cabinetry construction. All of our cabinets are built from quality materials and crafted by people who care.

All doors have fully concealed Euro cup hinges with a six-way adjustability. These door hinges include self-closing integrated soft close features, for that ever so quiet close.

Taking a contemporary kitchen to another level is the Push and Touch to Open technology. By eliminating the visible door opening hardware, stunning invisible kitchens retain clean lines, pure and uncluttered for a minimalist look.

Beautiful matching cabinetry interiors further accentuate the modern look that makes Aspire Cabinetry so desirable.

Lighting is so important in all rooms for both design and visual needs. With Aspire Cabinetry, the lighting mechanisms are hidden behind and under the cabinetry using cabinet options.

The drawer guide systems feature full extension and soft close systems that close with just a slight touch.

CABINET INTERIORS

Door Material	Standard	Interior Options

*Metal drawer box side is gray. Metal drawer bottom and back will match cabinet interior color chosen (Natural Maple, White or Gray).

DRAWER TYPES

Wood Drawer

- 5/8" solid hardwood drawer sides
- Natural Maple finish
- Laminated plywood drawer bottom
- Dovetail construction
- Full extension soft close undermount drawer slides

For the Brilliant Door Collection, door styles, all base, vanity/office and tall cabinets with drawers are available with 5/8" solid hardwood dovetail drawer sides and Full Extension Undermount Drawer Slides featuring soft close. This option changes all the drawers and sliding shelves within the cabinet.

Deluxe Metal Drawer

- Contoured double walled gray metal drawer box
- Drawer bottom and back will be 5/8" melamine
- Drawer bottom and back matches the chosen interior color
- Full extension soft close undermount drawer slides

This option changes all the drawers and sliding shelves within the cabinet to a double wall gray metal sided drawer box. The drawer box back and bottom will match the chosen interior color.

Superior Metal Drawer

- Straight 1/2" thick gray metal drawer box
- Drawer bottom and back will be 5/8" melamine
- Drawer bottom and back matches the chosen interior color
- Full extension soft close undermount drawer slides

This option changes all the drawers and sliding shelves within the cabinet to a 1/2" thick straight sided gray metal drawer box. The drawer box back and bottom will match the chosen interior color.

THE BEAUTY OF DOOR MATERIALS

Wellborn Cabinet, Inc. offers a large range of beautiful cabinetry materials that includes Wood, Medium Density Fiberboard, Decorative Laminate Veneer and Metal. The unique beauty of natural hardwood, laminates and metal define and enhance the beauty of your cabinetry.

Wood

Cherry

Cherry is synonymous with luxurious cabinets. The rich red highlights give the wood a distinctive appearance. Cherry will occasionally have tiny pin knots, pitch pockets and very small, dark streaks of gum. These features have fascinated woodworkers for centuries.

Character Cherry

Character Cherry's unique characteristics are emphasized by randomly occurring various sized knots, pin knots, pitch pockets and small streaks of gum. Cluster knots and open knots could also be a feature. The amount of character will vary from each door making each kitchen unique.

Maple

Maple is widely used in the cabinetry industry. This wood species features a straight grain with several distinctive characteristics. These include unique figures such as bird's-eye, fiddle back, mineral streaks and curly grain patterns. Finely textured with a natural luster, this creamy-white to light reddish-brown wood is often used for cabinets and floors.

Character Maple

Character Maple's unique characteristics are brought out by randomly occurring, variously sized knots, pin holes, worm holes and tracks, gum and bark pockets, sugar tracks, heartwood and mineral streaks. Cluster knots and open knots could also be a feature. The amount of character marks will vary from each piece of wood making each kitchen unique.

Oak

Authentic American red Oaks are open-pored and have grain patterns. Wellborn's manufacturing technology presents Oak with straighter grains than most cabinet lines, and our process minimizes the wide grains and reduces the widths of cathedrals in Oak.

Hickory

Hickory has distinctive contrasting colors from light to dark and strong grain characteristics. The texture of Hickory is open grained. Hickories by nature are heavy, hard, strong and stiff-producing durable cabinetry. Hickory is for homeowners desiring dramatic wood characteristics.

Medium Density Fiberboard

WellCore MDF

Using high pressure and temperatures, WellCore MDF is formed by combining wood fibers with a wax resin binder to form panels. It is made of wood veneer. It is much more dense than normal particle board. This is a durable and tough wood product, commonly used in the construction industry.

Decorative Laminate Veneers

Decorative Laminate Veneers have an MDF particle core and are composed of the different laminates and melamines listed below, creating a strong material.

Matte Laminate

Matte Laminate melamines have a super-matte finish with a silky smooth touch.

High Gloss Laminate

High Gloss laminates are created by laminating decorative paper to a MDF core then applying a high gloss finish to the outer panel and a matte finish to the inside panel.

High Gloss Acrylic Laminate

High Gloss Acrylic laminates are pressed onto a high quality super-refined engineered MDF core with PUR glue. The high gloss acrylic has a mirror-like reflective surface.

Embossed Melamine

Embossed Melamine is a Thermally Fused Laminated or High Pressure Laminated surface with dual-sided textured grain. Embossed Melamine is a high-impact surface.

Heavy Textured Melamine

Heavy Textured Melamine is a deeply embossed thermo-structured surface that showcases a wood's natural ridges, which are accentuated by deep furrows that add texture to the laminated surface.

Metal

Aluminum

Aluminum is characteristically lightweight and has high reflectivity, enhancing the illumination in your home.

OUR FACILITY

Since 1961, the Wellborn family has owned and operated Wellborn Cabinet, Inc. located in the southern part of the Appalachian Mountains in Ashland, Alabama.

ASPIRE FRAMELESS CABINETS

Aspire frameless cabinetry is defined by its sleek, clean minimalistic lines and crisp edges. Wellborn's full access cabinetry offers more storage space for all your possessions.

OUR COMMITMENT TO THE ENVIRONMENT

WELLBORN'S ENVIRONMENTAL BELIEF STATEMENT

It is Wellborn Cabinet, Inc.'s corporate-wide goal to fully incorporate leading environmental practices, policies, and standards throughout our enterprise – from our suppliers through final delivery to our customers. Our environmental responsibility extends to selecting, educating, and embracing suppliers based on their commitment to similar environmental practices, including the use of sustainable or recycled raw materials as well as low emission products.

GREEN CHOICE IS ABOUT TAKING ACTION

Environmental stewardship has been part of Wellborn's culture since its beginning. This has been proven through decades of actions, investments, and practices. The Green Choice program ensures that you are purchasing a brand of cabinets from a company that takes conscious steps to protect and minimize the overall impact on our environment. At Wellborn, we have recycling programs that utilize wood waste to generate power and steam and continue to lower VOC emissions through technology. We partner with our suppliers to improve their environmental programs. You will find the KCMA environmental stewardship program seal proudly displayed on our cabinetry. We also partake in certification programs, which guarantees that our manufacturing process reduces the effects on the environment.

Wellborn continuously searches for new technologies and processes to improve our sustainability practices. We will continue to partner with our suppliers and industry associations in a joint effort to embrace the changes necessary and ensure that we all have a healthier environment. Wellborn's demonstrated commitment to environmental stewardship offers you the assurance that the cabinets you buy are the Green Choice for generations of family and the environment.

KCMA ENVIRONMENTAL STEWARDSHIP PROGRAM CERTIFICATION

Wellborn endorses the industry-wide efforts and commitment of the KCMA organization and its Environmental Stewardship Program (ESP). The ESP certification program establishes a standard, measurable benchmark for environmental performance. This certification validates our performance to adhere to high standards for air quality, product resource management, process resource management, environmental stewardship, and community relations. You will find the KCMA Environmental Stewardship Program seal proudly displayed on our cabinetry. The ESP program provides the only standards for manufacturers in the Kitchen & Bath cabinet industry that truly defines and measures the holistic environmental performance of a manufacturing enterprise – not just its finished cabinets.

The KCMA's Environmental Stewardship Program has been named as the benchmark for cabinets by the National Association of Home Builder's ANSI-approved Green Building Standard™.

Points toward ESP certification are awarded based on compliance in the following categories:

- | | |
|-----------------------------|---------------------------|
| Air Quality | Environmental Stewardship |
| Product Resource Management | Community Relations |
| Process Resource Management | |

Wellborn Cabinet, Inc. along with our affiliate operations, are fully certified under this program. In looking to the future, Wellborn Cabinet, Inc. has committed to recertify annually as the program adopts new industry standards and practice.

ECO-CERTIFIED COMPOSITE SUSTAINABILITY STANDARD

With the Eco-Certified Composite (ECC) Sustainability Standard, you can be assured that Wellborn's composite wood panels are among the greenest products available for architectural, construction and consumer products.

The ECC certification delivers verifiable evidence of greenness, demonstrating compliance in three of five categories including carbon footprint, local and renewable resources, recycled/recovered content, sustainability, and wood sourcing through a recognized standard.
